Prompt: A first-person view of a serene library interior featuring a large wooden table in the immediate foreground, upon which rests an open hardcover book, a spiral notebook, and a black pen. The perspective is fixed, looking past the study surface toward rows of tall, dark wood bookshelves densely packed with colorful volumes. Natural light streams through high arched windows in the background.

Prompt: A first-person view of a narrow, muddy trail winding through a dense, rain-drenched tropical forest, where broad palm fronds and ferns crowd the path on both sides. Rain falls visibly in vertical streaks, glistening on wet leaves and saturating the earthy ground littered with fallen branches and decaying foliage. The canopy overhead filters soft ambient light that blurs distant tree trunks into a green-gray haze.

Prompt: A first-person view of a serene alpine lake at dawn, where jagged mountain peaks rise symmetrically across the water's edge, their snow-dusted ridges mirrored in the glassy surface. A thin veil of mist hovers just above the lake, softening the transition between water and forested slopes. The foreground is strewn with dark stones and pebbles along the shore, interspersed with green grass.
