

(a) Consistency Backward Simulation and Inference Scheduler

(b) Flow Map Backward Simulation (Left) and Inference Scheduler (Right)

Annotations:

N : Number of Inference Steps

T : Number of Total Diffusion Steps

$\frac{T}{N}$: Step Size $t_n = \frac{N-n}{N}T$

$f_\theta(z_t, t)$: Consistency Model

$f_\theta(z_t, t, r)$: Flow Map Model
