

Spec 023 Sign-off Gate End-to-End Test

llmXive automated test

June 10, 2026

Abstract

This is a synthetic test artifact for the spec-023 publication sign-off round-trip (issue vote -> sandbox DOI mint -> posted). Not a research paper.

This document exists solely to exercise the maintainer-vote publication gate against the Zenodo sandbox. See specs/023-pipeline-e2e-completion.

End of paper.

The remainder of this PDF contains the reviews and revision history for this manuscript.
