1 Step 1:

I'm at the start position (0,0) facing East towards the goal at (6,6). The view shows a corridor ahead with walls on both sides.

2 Step 16:

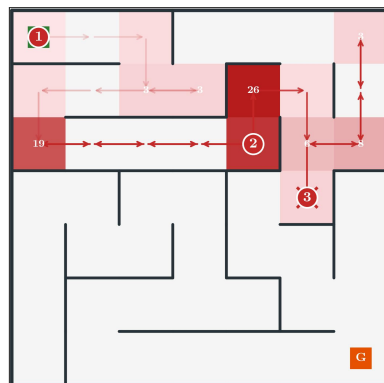

Excellent progress! I moved 4 cells East to (2,4). The solid blue screen indicates a wall directly ahead.

3 Step 47:

I'm at (4,4) facing East with what looks like a corridor opening. The green and purple walls suggest a junction ahead.

1 Step 1

2 Step 37

3 Step 99

1 Step 1:

I'm starting at position (0,0) facing East. The goal is at (6,6) in the bottom-right corner of this 7x7 maze.

2 Step 37:

I'm back at (2,4) facing South, which is a dead end. I need to find a completely different approach. I've been going in circles.

3 Step 99:

I'm at (3,5) facing South. It's a wall/dead end. I'm at row 3, need to get to row 6.
