

Profiles & Bridges

- Transport bindings (HTTP/SSE, QUIC, ...)
- Identity & credential methods
- Schema & event-type registries
- Extension & pattern libraries (auctions, games, workflows)
- Bridges to MCP / A2A / A2UI / DIDComm

Regulation & Oversight Plane

Policy enforcement • audit & provenance • monitoring • compliance • dispute signals

Interaction & Organization Plane

Schemas
Envelope & codecs

Events & Streams
Ordering & backpressure

Sessions & Orgs
Groups, roles, membership

Economy Primitives
Metering, receipts, settlement

Transport & Routing Plane

Addressing & discovery hooks • channel setup • protocol bindings • termination

Entity & Trust Plane

Who
ID, keys, version

What
Capability statement

Credit
Trust, reputation

Privacy
Permissions, ownership

Graph View (concept)

Entities (nodes)
Agents, tools, humans, institutions, orgs

Relations (edges)
Sessions, memberships, trust, delegations

Activities (events)
Invocations, messages, negotiations, transactions

Policies & Provenance
Constraints, rules, evidence over time
