Nano Banana

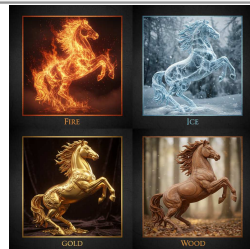

Prompt: The image depicts exactly 3 foxes and exactly 3 small lanterns in a snowy pine forest. Each fox sits beside one glowing orange lantern, forming a strict one-to-one arrangement with no extra foxes or lanterns. Snow crystals, warm light, pine branches, and blue winter shadows create strong visual contrast and a clean countable composition.

Prompt: A man in a refined coastal fashion portrait with windswept hair, open white shirt, and a dark jacket draped over one shoulder. Behind him are dramatic sea cliffs, layered clouds, and textured rocks. His body language is relaxed and natural, with correct visible hand anatomy. Bright clean lighting, strong contrast, no haze or muddy darkness.

Prompt: A premium elemental transformation sheet featuring the same horse statue in four elemental forms. Top-left: the horse statue rendered as fire, with streaming flames, and flying sparks. Top-right: the same horse statue rendered as ice, with translucent ice crystals and sharp frozen edges. Bottom-left: the same horse statue rendered as gold, with rich golden metal, and mirror-like highlights. Bottom-right: the same horse statue rendered as wood, with carved timber grain, and polished fibers.

Prompt: Five translucent potion bottles on a wooden picnic table in a garden. Each contains a different glowing color, with front tags reading "L", "A", "N", "C", "E" left to right. Dew, flowers, and blurred greenery make the scene fresh and cinematic.
