Skills & Usage Guide

In-task Execution

Rolling out with Skills

Read `nginx/SKILL.md`
Run `docker run -d nginx`
 The port is inaccessible
...
 Read `ui-design/SKILL.md`
Refine the website style
 That looks good

Run Nginx Docker Image

1. First check the `defalut.conf`

2. Run `docker run -d nginx` in the same directory.

2. Run `docker run -d -p 8080:80 nginx` in cwd.

3. Check with `curl localhost`

4. If 403 forbidden, run `chmod -R 755 html`

4. Check `docker logs -f <container_id>

5. Check `docker logs -f <container_id>
