PACKAGE

same schema

same lifecycle

correctable

colleague

/create-colleague

EVIDENCE

— enterprise/local work traces: docs, reviews, decisions, incidents

GOVERNANCE

— organizational access, handover utility, work-only entrypoints

RUNTIME

— full, work-only, persona-only skills for team reuse

celebrity

/create-icon

EVIDENCE

— public-source traces: first-person works, interviews, speeches

GOVERNANCE

— source boundaries, citation discipline, no private inference

RUNTIME

— research-oriented skill with visible evidence limits

relationship

/create-ex

EVIDENCE

— private interpersonal traces supplied by the user

GOVERNANCE

— consent, local control, deletion, non-public defaults

RUNTIME

— local editable state for bounded interaction rules
