

Scenario 1. Home — Weekend Childcare

A continuous 30-second household stream. audio-interaction listens every 0.4 s and decides whether to remain silent or speak; five of the seven StreamAudio-2M task categories are exercised in this single scene.

TASK CATEGORY	Audio Understanding	Real-time ASR	Streaming Translation	Instruction Following
StreamAudio-2M (7 categories)	Voice Chatting	Proactive Respond	Audio Agent	-- (silent) listening

Dashed boxes denote categories not exercised in this scene; they appear in Scenarios 2-4.
