(a) Qualitative comparison among Gemini-3.0-Pro, Venus, and ShutterMuse (Ours)

User: Recommend a 16:9 composition.

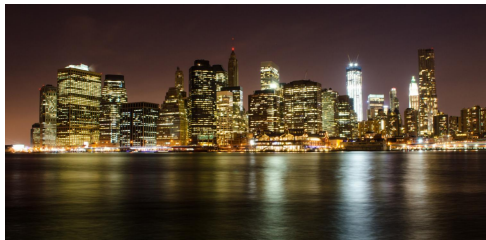

ShutterMuse: ... the overall **visual weight is too high**...it is recommended to **adjust the framing range** so that the horizon line is placed in a more appropriate position. ...

User: I want to take a photo of **Osaka Castle**. Could you recommend a composition?

ShutterMuse: ...It is recommended to use a **centered composition**...

User: I want to take a photo of this **rainbow** and the **orange-roofed house**.

ShutterMuse: ...the visual weight is clearly shifted downward...it is recommended to **use the rule of thirds**, and place the house and rainbow...

(b) Demonstration of ShutterMuse's interpretable and interactive aesthetic cropping
