

(a) Composition Decision-Making

ShutterMuse: ... a long shot **with a centered framing** is recommended.

ShutterMuse: ...The image is **severely tilted**...

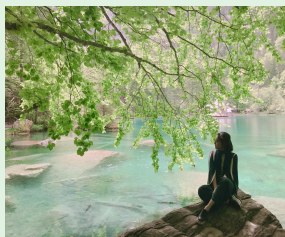

ShutterMuse: The composition is well balanced... **keeping the original image is the best choice.**

(b) User Intention Cropping

Input Image

User: Please recommend a **3:4** cropping.

I recommend to utilize the rule of thirds composition.

User: Please recommend a **3:4** cropping.

I recommend a centered framing.

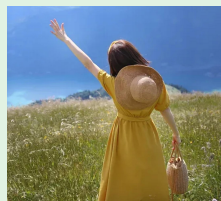

Input Image

User: Please recommend a **half-body** cropping.

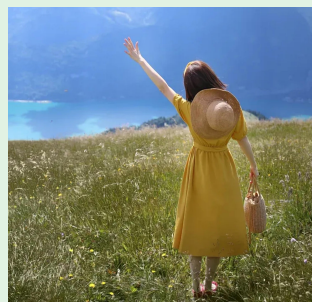

I recommend to employ a centered layout.

User: Please recommend a **full-body** cropping.

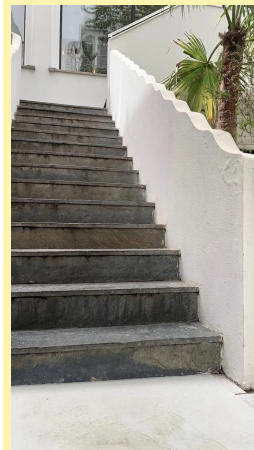

I recommend to apply the rule of third.

(c) Pose Recommendation

ShutterMuse: ...You can **sit directly** on the steps. **Keep your upper body upright**, **place** your right hand behind you on the steps, and **rest** your left hand on your leg. **Extend** both legs diagonally forward.

Input Scene

ShutterMuse's pose recommendation

ShutterMuse: ...You can **stand** facing the camera ... **Place your left hand** on the railing behind you. **Raise your right arm** with the elbow bent while extending your left arm backward. **Cross your legs**, with your **right leg in front**, and your **left leg behind**.
